

NZ Safety Alert

Let's work together to keep ourselves and our workers safe

8 May 2020

COVID-19 Toolbox video

It is important to ensure workers are kept up to date on relevant information associated with COVID-19.

To this end, a very good 10-minute video from the UK may be useful as a toolbox or other communication tool. The video can be found [here](#).

New Zealand is not out of the woods with new cases still occurring. It only takes one unwell person to affect many, so we need to continue to take a firm stance in Level 3.

- Make sure people waiting for goods and services stay separate from each other.
- When visiting retail businesses, we all have a part to play in maintaining the public health rules such as keeping your distance from others.

Rules are in place for a reason - to keep us all safe.

We are available to help, contact wayne@minex.org.nz if you would just like a chat. Now is a time for looking after ourselves and each other.

You need to ensure that:

1. Workers are kept informed of the “facts” associated with transmission of COVID-19.
2. Workers are trained in your COVID-19 Management Plan requirements.
3. You consider the mental wellbeing of workers and provide support where necessary.

Know of an incident or near miss? Please share the learnings with us.
